Importance: High

Please take a look at the attached excel spreadsheet (Water Quality Query_W008_W014_crosstab) with a breakdown of results by date and analyte for locations W008 and W014, related to the inquiry about water quality. Sampling location W008 was sampled once on November 30, 2019 and it is a City of Port Neches Water Plant at Drinking Water Faucet. Sampling location W014 has been sampled 9 times and it is at Outfall 301; South of TPC Facility at drainage culvert - JWWTP discharge from polishing ponds. This is a permitted discharge location.

Please take a look at the attached excel spreadsheet (Water Quality Query_W008_W014_crosstab_Detections) that summarizes all of the detections.
